

Recycling Made Easy

Many people do not recycle properly because they are unsure of the rules or they are not set up correctly to recycle. And sometimes they just don't care. Recycling is very easy if you just follow the basics. Here are a few things to help you recycle properly.

For more information

Yes

Please recycle!

*All Recycling can be mixed loose in the green cart.

* All clean, dry paper and paper products are recyclable including (but not limited to); newspaper, cardboard, junk mail, magazines and cereal boxes.

*Only plastic bottles or jars with a twist-on top can be recycled. Plastic bags, buckets, tubs and deli-type containers are considered garbage. The best way to recycle these items are to reuse them.

*Glass bottles, jars and tin or aluminum cans are all considered recyclable and may be mixed with the paper and plastic in the green cart.

*Please flatten all cardboard.

*Please keep recyclable items separate from the trash on the bulk pick up day.

No

Please don't!

* Please do not mix plastic bags of any kind with the recycling. Plastic bags are not included in this program and the best way to recycle them is to reuse them. Some retail stores do accept bags for recycle.

*Please do not mix styrofoam or cellophane wrapping with the recycling. These items are also considered garbage.

*Please do not put anything in cardboard boxes.

*Please do not pile bags of trash on top of metal, cardboard or recyclable items. Two additional crews come by your home on the bulk pick up day; one for bulk garbage items and one for bulk recycle items. It is difficult for the drivers to see these items if they are underneath other garbage.
